Plantation, Florida

Provision of psychological testing in addition to individual, marital, and family psychotherapy to children, adolescents, and adults.

12/02 – 5/04 Clinical Supervisor

Nova Southeastern University Community Mental Health Center
Davie, Florida

Supervisor to doctoral level practicum students and staff within the Child Outpatient Program. Administrative duties also included chart reviews, report reading, and attendance at meetings.

9/02 – 12/02 Private Practice

Weston PsychCare
Weston, Florida

Provided individual, marital, and family psychotherapy to children, adolescents, and adults.

4/02 – 8/02 Director of Cognitive Medical Services

Park Place Orthopedics and Rehabilitation
Plantation, Florida

Provided individual, marital, and family psychotherapy to children, adolescents, and adults. Also provided biofeedback therapy to patients following work-related injuries and auto accidents. Responsible for supervising therapeutic interventions of two other individuals within the department. Administrative duties included overseeing appropriate completion of required paperwork, program development and maintenance, crisis intervention, and re-initiating a relationship with Nova Southeastern University's (NSU) practicum program for student rotations.

10/98 – 9/99 Director of Clinical Services

Outreach Broward, Inc.
Fort Lauderdale, Florida

Responsible for supervising the provision of therapeutic intervention to children and adolescents within many group homes. Worked directly with masters and doctoral level clinicians in supervision and interdisciplinary team meetings. Oversaw all administrative aspects of the clinical department including charting, completing required paperwork, program development and maintenance, and appropriate crisis intervention. Interacted with various other professionals including case managers, behavioral specialists, and psychiatrists. Administrative duties also involved participation in NSU's Consortium Internship Program for doctoral level psychology interns, in addition to participation in NSU's practicum program.

1/98 – 10/98 Psychological Resident

Outreach Broward, Inc.
Fort Lauderdale, Florida

Residency hours were fulfilled by working in a multitude of capacities within the agency. Experiences included working as a Program Therapist for a residential group home for at-risk youth where individual, family, and group therapy was provided. Duties also involved crisis intervention, consultation with other professionals, participation in court proceedings, report writing, treatment planning, case management, and attendance at interdisciplinary team meetings. Also, involvement included the provision of supervision in the role of Clinical Supervisor to therapists providing therapeutic intervention to children and adolescents in

residential group homes. Additionally, work within the Family Assessment Center as the Acting Assistant Director was previously incorporated into this experience. Worked with the Acting Director in an effort to implement the most effective programs with regard to assessments administered to children and adolescents. Duties also included the provision of supervision to psychological examiners, consultation with, and feedback to, professionals and guardians, and crisis intervention.

9/97 – 1/98 Psychological Resident
Nova Southeastern University Community Mental Health Center
Fort Lauderdale, Florida

Conducted clinical intake evaluations and psychological, achievement, and intellectual assessments to children and adolescents ages 4-17 in shelter or foster care. Clinical work also included individual and family therapy with children and adolescents who had involvement with the Department of Children and Families. Administrative duties involved participation in court hearings on behalf of the children and adolescents, consultation with other professionals, report writing, formulation of treatment plans, case management, crisis intervention, and the provision of group and individual supervision to practicum students and other program staff members.

9/96 – 8/97 Psychology Intern
Miami Children's Hospital, Department of Psychiatry
Miami and Naples, Florida

Responsibilities included the provision of a full range of psychological services to children and adolescents ages 3-17, and their family members. Service to the inpatient population included full-battery assessments in addition to individual, group, and family therapy. Co-facilitated a children's process group and an adolescent sexual abuse survivors group. Administrative duties involved participation in multi-disciplinary team meetings, formulation of treatment plans, consultation with other medical services, report writing, and crisis intervention. Outpatient treatment services included individual, group, and family therapy. Co-facilitated an adolescent process group and a children's social skills group. In addition to the above-mentioned administrative duties, outpatient responsibilities included clinical intake interviews, mental status evaluations, provision of weekly clinical supervision to an assigned student, case management, and presenting at in-service seminars.

3/94 – 7/96 Clinician and Biofeedback Therapist
Park Place Therapeutic Center, Cognitive Medical Services
Plantation and Tamarac, Florida

Provided psycho-physiological and psychological evaluations and treatment in an outpatient rehabilitation facility to adolescents and adults. Core team member of an interdisciplinary Pain Management and Work Hardening program. Services provided included psychological assessment, individual and group therapy, psycho-physiological assessment and treatment, and neuropsychological assessment. Duties included report writing, treatment planning, progress evaluations and summaries, and oral presentation in team meetings. Provided peer supervision to members of interdisciplinary team, in addition to consultative services to a variety of treatment providers.

8/94 – 7/95

Clinician

Pre-Doctoral Practicum

Interpersonal Violence Program, Parent and Child Trauma Program

Fort Lauderdale, Florida

Provided outpatient assessment and therapy within a Community Mental Health Center to children and adolescents with multiple diagnoses who witnessed interpersonal violence and abuse. Parenting training was also incorporated into the therapeutic process. Services included diagnostic interviews, assessment, and crisis intervention while treatment was conducted individually, in groups, and with families. Administrative duties included program coordination of the Parent and Child Trauma Program, treatment planning, report writing, consultation, and provision of peer supervision to incoming practicum students regarding assessment and treatment material. Although the focus of this practicum experience was with the children, orientation groups for male perpetrators and intake evaluations with adult victims/perpetrators, were also conducted.

6/94 – 12/94

Clinician

Anxiety Treatment Center

Coral Springs, Florida

Provided outpatient assessment and therapy to children and adolescents with primary diagnoses of anxiety disorders related to school phobia. This was a research study wherein the treatment provided was either cognitive-behavioral or educational and supportive in nature. Services included intake evaluations, treatment planning, consultation with parents and teachers, and individual therapy.
